

"High Cost Fighters"

We are FIGHTING to reduce the high cost of living in Columbus.

We have the goods and the prices to FIGHT with. They will bring down your costs and keep you pleased. Your dollars will buy a real "dollar's" worth here.

PUCHI BROS.

Ford

THE UNIVERSAL CAR

March 3, 1936, the Ford Motor Company advanced the price of Ford cars because of the increased cost of production. No specific announcement was deemed necessary at the time, but it has developed that misrepresentations and misquotations of those advanced prices have been and are being given out. So in safeguarding the public against the evils of misrepresentation, we herewith give the present prices:

RUNABOUT With dual electric starting and lighting system.	\$225
TORQUE CAR With dual electric starting and lighting system.	\$275
COUPE With dual electric starting and lighting system and demountable rims.	\$325
SEDAN With dual electric starting and lighting system and demountable rims.	\$375
TRUCK CHASSIS With solid tires and clincher rims.	\$600
FORDSON TRACTOR 1500 f. o. b. Dearborn, Mich.	\$610

The dealer whose name appears below will be pleased to receive your order, pledging the assurance of the best possible promptness in delivery.

Insist on Genuine Ford Parts.

Spiv and Spiv Have a Few Words About Post

Private Joseph E. Spiv, Camp Hospital, was seen yesterday with a look on his weathered face, and after a day's work his machine did not contain any time.

Mrs. Julia Martin, the young lady who performed the operation on Private Charles Parker's shoulder, passed through the city yesterday on her way to Nogales, Arizona.

Private First-Class Dewitt T. Felt, Camp Hospital, has found the red cap force. He was seen yesterday at the station yesterday at the 6:15 train.

Private First-Class Edgar Lee, Camp Hospital, and wife, Mrs. Lee, arrived yesterday. He was accused of breach of promise when he refused to deliver the wedding ring to the correct party.

Private William Kirk, Camp Hospital, the red shoe king, has changed his run from the city to the parts better known as the bottom. It has been said that Private Kirk has a bone buried in this part of town.

Speedball Harden won his first fight on the coast after being floored in the first round for the count of six. The fight was a four round bout. Hayden took the last three rounds and won the decision.

Sergeant Richard Dade, Camp Hospital, can furnish change for all the notes in town. He left camp last night with seven hundred dollars. These pennies were the leaving of a small cash game at the Camp Hospital.

Mrs. Frankie Abernathy and her sister, Miss Ruth B. Moore, were seen at the station yesterday meeting Frank, but it seemed as though they were disappointed, as they were escorted home by a Medical Corps man by the name of "Hibbs back."

Sergeant First-Class William R. Weston, Camp Hospital, better known as the rock art hand, has a cigarette holder he paid \$1.25 for, but he never pays 20 cents for a package of cigarettes to smoke in the holder, although he smokes just the same as long as other folks buy them.

Private Henry H. Sims, member of the Military Police, has been reading history for the last few days. He says that penitents were fed to people more than 100 years ago. He is thinking of trying them out as he is going to be discharged soon. One word, Oh, but! What has that got to do with it?

CHILD SHOT BY SISTER
ALBUQUERQUE, N. M., June 23.—Vern Mahan, 3 years old of Marana, N. M., died here as the result of being accidentally wounded with a rifle while playing with her 5 year old sister. The child was brought here, 36 miles, in an automobile for an operation, which she failed to survive.

POLITICAL ANNOUNCEMENTS

Democratic County Ticket.

J. L. LOFTIS.

For County Commissioner, Dist. 2:
JAMES A. RHEA.

For County Commissioner, Dist. 3:
D. J. CHAMBERN.

REAL OIL DOPE FROM THE FLORIDA WELL

When the well of the Florida Oil Company was partially failed on last Sunday, every bucket sampled into the slush pit carried a good showing of oil and the latest view in the oil game could see the same favorable signs of an important strike. As only a little over 300 feet of casing had been placed in the well, which is now over 1500 feet deep, it was deemed best to go very slow on the very necessary steps toward getting it to the oil sand which had been penetrated before the drill was stopped last week and to await the arrival of the extra casing for shooting in the oil sand which had been about 600 feet of this 7 1/2 inch casing had been lowered into the well, and it is expected that the balance of the 1500 feet will all be in place by the end of the week.

Geologists Put O. N. on Well.

Large crowds of interested citizens continue to visit the drilling site and a number of very business like strangers may be observed in the crowd quietly checking up on the possibilities. One geologist who visited the well Monday expressed his confidence in the ultimate outcome, and said all signs would fail if good production were not secured within the next few hundred feet. He particularly commended Manager Clark against ill advised haste at this stage of the proceedings. Such warning, while appreciated, was scarcely needed, as John Clark has labored too long and too faithfully in his efforts to bring in an oil well, to overlook any hint right now, when everything seems coming his way and justifying his unflinching faith in oil production.

Amphibious Gets by Quickness.

Good progress is being made down at the Angeles well, near Mexcala, and now that the quicksand has been passed safely, Manager Study expects to go forward more rapidly. Mr. Higgs, president of the Southern California Drilling Company, which has the drilling contract for this well, returned last week from a hurried trip down in the Texas oil fields where he had gone in search of more casing. He reports that he succeeded in buying two cars of 12 1/2 and 10 inch special California DRX casing and 4000 feet of 3/4 inch cable, and these specifications, when read by real oil men, mean much in regard to successful drilling.

Manly Experienced Oil Man.

With the 3000 feet of cable on hand and a good supply of rod and other material, this company is in splendid shape to carry on uninterrupted 24 hour a day drilling, and not many weeks will elapse before they will begin to know "where they are at." Manly is an experienced oil well driller and he may be depended on to watch all the tricks in the name of drilling a windmill well. He is not what you might call a very talkative gentleman, but has an air of quiet assurance which speaks volumes for his confidence in the work.—Deming Headlight.

Inquisitive Patrolman Nabs Willy "Jimmy Valentine"

DENVER, Colo., June 23.—A. J. Green, who is said to have declared to Chief of Police Hamilton Armstrong that he was the "Jimmy Valentine" who had played hide and seek with the local police department for three months, was arrested here recently after a lively chase by an inquisitive patrolman. The patrolman discovered the door of the safe open in the office of a printing plant and went to the rear of the shop and forced an entrance. Green threw a chair through a window and leaped through the hole, with the patrolman in hot pursuit. The officer fired a few shots and the fugitive stopped. He said he had spent three years in France with the Canadian army, though he had no discharge papers. More than \$100 was found in his pockets.

Bitten in Nose by Rattler Small Boy Recovers

HOUSTON, June 23.—Remedios Flores, son of Casilio Flores, who has more than 1000 acres in the slough between camps of Jaffa Miller near Higgs, was bitten in the nose this week by a rattlesnake.

The young man was working around the camp and when slithering over to pick up something from the ground the rattler struck him in the nose. He was evidently cooled under a small bush and did not give the usual warning when the snake man approached. The boy was taken to Higgs where he was given medical attention and although the wound was very painful his condition was not serious. The rattler was a small one, being about two feet in length.

Escaped Prisoner Captured by Santa Fe Railroad Switchman

SANTA FE, N. M., June 23.—Edwin Cain, the 19 year old prisoner who made his getaway from the city jail Monday night, was caught at Lamo. A switchman found

the captive. Prison authorities had advised the railroad men of the escape, thinking the prisoner would try to board a train at Lamo, and they outstaged the escape. Cain made his escape at night, but how he escaped Lamo was not known at the prison. He apparently did not arrive until after dark. At least he wasn't caught until 9 o'clock at night.

Pankey Adds 24,000 Acres to Already Large Land Holdings

DENVER, N. M., June 23.—London, and Governor H. C. Pankey last week purchased a tract of land near the town of Escondido consisting of 24,000 acres and known as the Upton pasture. This land was purchased from the state, the consideration being \$2 per acre. Lieutenant Governor Pankey is said to be the largest individual landowner in New Mexico, and his entering into this equity is important, as he always improves his ranches in the limit of his capabilities. It is estimated he will add greatly to this acreage by purchasing other nearby tracts soon.
